

# CVS #20 Wireline Grease

## Overview

CVS #20 Wireline Grease is a high viscosity lubricant with an extremely stable viscosity in conditions with fluctuating temperature demands.

CVS #20 Wireline Grease has excellent environmental benefits for delicate areas. Will breakdown year-round.

CVS #20 Wireline Grease Lubricant has excellent Production water wash resistance.

CVS #20 Wireline Grease has a low affinity to collect debris. We do not incorporate tackifiers and provide body and adherence with other means.

## Specifications

Viscosity @ +100C	300 cst
Viscosity @ +40C	900cst
Viscosity @ 0C	2500cst
Viscosity @ -20C	3300 cst
Viscosity @ - 42C	5500 cst
Pour Point	-70C
Corrosion Salt Water	Pass
Inhibited for H2S and Acids	Yes
Viscosity Index.	435
Color	Clear Water White

## Uses:

**Wireline applications year round**

## Availability:

**20L Pails, 205L Drums, 1000L**
